Ed Des Autel

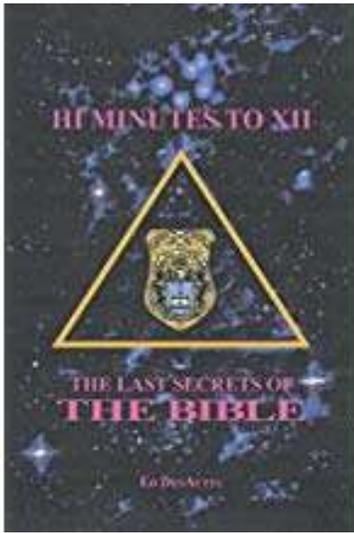

Ed hails from Omak, Washington. After high school he joined the United States Air Force and was trained as a jet mechanic. Helping maintain F-104C Starfighters, he was privileged to meet Col. Chuck Yeager, the first man to fly at supersonic speeds, and to be a part of the Oregon Centennial Ceremony of 1959. His assigned aircraft also participated in the first graduation ceremony held at the Air Force Academy in Colorado Springs, Colorado, and was involved in a movie MGM made about the squadron he was assigned to.

III Minutes to XII:

The Last Secrets of the Bible B07B3YDPLK 1641382511

This book was not written to convince anyone to change their views or to take sides in any issue that may arise from any point of view stated by the Author, Ed Des Autel. Any relation to personal belief in science or religion is the author's own observations based on research and analysis of the bible and various books and science publications. Anyone may research the same information and come to their own conclusions as to what may be the true history of the Caucasian race in relation to the biblical story. Past and current scientific research have excavated old cities in various locations around the world that is uncovering western man's historical past that is directly and indirectly involved with the bible. This book, "III Minutes

to XII", will attempt to tell the untold story of our ancient and modern day ancestors, the Caucasian race, that existed before the great flood of the bible and after. This book will attempt to explain where modern Caucasian man had his beginning and where his technology came from, and where his destructive nature was born. I will try to explain some of the questions that modern man asks about the bible, his science, mythology, and what does science ($E=mc^2$) have to do with creation? Who are the sons of God that called themselves watchers in the book of Enoch? Who were the giants of the bible? Where did they go? What is the meaning of 666, the number of a man in Revelation 13:18?

Many books have been written about what is going to happen to man because of his destructive nature? Should we be worried? Read this book with an open mind, and draw your own conclusions.
