The Sanctamooja and Me B06XW1C2SN 1544944330

The Sanctamooja and Me was written about my young life. You see I was born in 1940 and that was back when boys could be boys and we were. As you read this book you will wonder how I and my brothers lived past nine years old. We played hard and I am sure that our parents prayed hard that we would live through it. This is a Tom Sawyer story the difference being is I lived it every word of it. I was raised on a farm with no electricity until 1957. I had the greatest grandparents and Mom and Dad in the world. They stood back and let me make my mistakes only stepping in when they must to guide me along life's path. And I might add it was a long and winding path. As you read the Sanctamooja and me I know that it will start you thinking and remembering some of the great adventures you had in your own young life.
