

The Mermaid Quilt and Other Tales

By Beth Camp

Reviewed by Sue Eller

A collection of short stories and poems centered around the myths and legends of mermaids, *The Mermaid Quilt and Other Tales* will entertain and delight the reader. Some of them are poignant, some a bit scary, but all will leave the reader with a sense of the magical world under the sea. A good book to pick up for a quick break, since each story or poem is a stand-alone piece, although once I started reading, it was hard to put down.

The Mermaid Quilt and Other Tales is available at Amazon.com and CreateSpace in paperback and on Kindle and Smashwords in e-book format, or through the author.
