T. Hammond

T. Hammond recently joined Spokane Authors. A paranormal romance and urban fantasy author, T. feels writing is not a calling so much as it is a compulsion. No one is more surprised than she is when characters take over the plot and dialog, (re)directing stories in directions she had not (consciously) intended. Although T starts out each novel with a basic outline, she finds one or two chapters into the novels, not only have the characters shredded her outline into tiny unidentifiable pieces, they use the resulting confetti in a nose-thumbing parade.

Blind Seduction: Team Red, Book 1

B00C8UB0JK

An accident changed Teresa March's life. Within a heartbeat, she lost her sight and her independence. Her scars are still healing when life takes a turn for the better and she receives Red, a companion German shepherd, from her friend Janey.

Red is a typical dog...well, except for the whole talking-in-Teresa's-head thing. They develop a bond, forged with humor, love, and not just a little snarky sarcasm.

If a smart-alec dog isn't enough to hold your attention, Sebastian and David came to town and both have set their sights on Teresa. Neither of the sexy ex-Navy men are above using military tactics to secure their target--and so begins the siege of Teresa March.

When you stop drooling over the two gorgeous men, consider the implications of a talking dog...the police department certainly has.

Blinded and scarred in an accident a year ago, Teresa has finally found love, and a new career with the help of her companion dog, Red. Red appears to be a typical German shepherd, but he shares a mental communication link with his owner that is anything but ordinary. He's articulate, sassy and opinionated - he's also scary-smart, and has a talent for tracking.

Teresa and Red have partnered with David, and Bas, to form Team Red. This unique Team helps the local police department sift through clues which only Red's sensitive nose, and Teresa's ability to ask the right questions, can uncover. A twist of fate brings Team Red to the attention of the military, and the Team gets ready for their first undercover mission (we can only divulge at this point that Red looks adorable in his tux).

While David is stuck in Boston hoping to resolve personal issues, PreClan's top-secret surveillance system is at a critical stage. Teresa, vacillating between hurt at David's deception and wonder at Bastian's

potential, doesn't fully appreciate the danger. Teresa's companion dog, Red, is understandably excited by all the activity, Will his vigilance and unique bond with Teresa be enough to keep her safe?

Compassionate friends Janey, Ken, Tara, and Jason, take over Marcia's hospice care in an effort to relieve stress as Teresa wages her struggle against PTSD nightmares and paranoia. Tank bonds with Wes as the sad young boy watches his mom slip away.

Posse: Duoviri

B01D3EK5NQ

I've lived through thousands of years and countless lifetimes. I've lead men to war, and been the cause of a few. I am warrior, mother, widow, and shapeshifter.

You know my names and heard tales of my bravery, ferocity, passion, and strength, but you don't know the real stories - after all, history has been written by men who paint the accomplishments of women with a tainted brush.

I have many names; one of them was Boudicca.

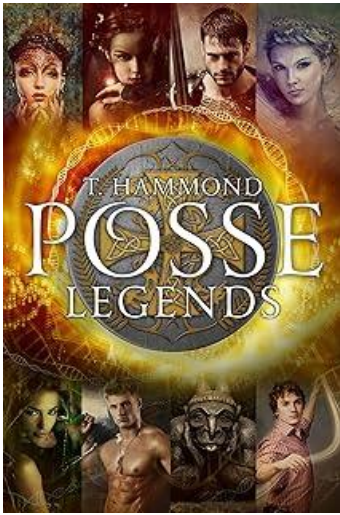

As the last of my line, and the strongest of the shapeshifters, I lead a posse of paranormal warriors. I am the Duoviri, the judge, jury, and executioner for our society, the Eximium.

If you turn Rogue, mine will be the last face you see.

This prequel novella tells the backstory of the Duoviri, the supernatural community's sheriff, and her Juris, deputy.

WARNING: The Duoviri is wrapped around true history. The novella contains reference to the rape of Boudicca's daughters, a pivotal incident that fueled her anger against the Romans. While not graphic or drawn out in my re-telling, the rape is part of this story and may be a trigger for some readers.

Vulnerable members of the Eximium—supernatural—are disappearing. When a fugitive werejackal leads Lexa and her vampire partner, Etienne, to a secret lab where supernaturals are unwilling subjects in genetic experimentation, they uncover a sinister conspiracy implicating the very leaders she'd considered her allies.
